

A MEMBER OF

Offers the 2012 SAP TERP10 ACADEMY and CERTIFICATION EXAM

Friday, May 18 – Friday, June 1, 2012

The TERP10 Academy is a highly intensive training focusing on the integration of 11 different business processes in SAP ERP®. This Academy is taught by a certified SAP® instructor and concludes with a Certification exam on Day 10. Upon passing the exam you will be designated an **SAP CERTIFIED BUSINESS ASSOCIATE with SAP ERP 6.0**, an SAP® Associate level certification – the first of three levels of certification an SAP® professional may choose to pursue throughout his or her career.

WHY PARTICIPATE?

- Receive focused, specialized training in SAP ERP® - a state of the art software used by companies around the world.
- Perform key business processes in order to understand integration points and key controls of SAP ERP®.
- Gain exposure to the SAP NetWeaver technology platform, to SAP Strategic Enterprise Management (SAP SEM), and to SAP NetWeaver Business Warehouse (SAP NetWeaver BW).
- Increase your marketability to prospective employers.

Students are expected to attend class every day, all day. Class is typically scheduled from 9:00am to 5:00pm, but can vary. Most students arrive to the lab early and stay late to study. It is common for students to form study groups – especially on the weekend mid-class. Students who have tried to combine the Academy with a for-credit night class or other class project have historically done poorly. This class is not recommended unless the student is able to focus a considerable amount of time outside of class for exam preparation.

Junior, Senior, or Graduate students who have taken at least three courses with SAP ERP® content (see table below) are eligible to sign up.

The regular cost for attending the Academy through SAP is \$5,750. However, because Lamar University is a member of the SAP University Alliances Program, students will only

pay \$500, which includes tuition, participant handbook, and the SAP® exam fee.

The passing rate for the TERP10 exam is approximately 60% worldwide. Students are encouraged to register as early as possible to receive guidance for early preparation. Furthermore, only 28 seats are available per TERP10 class. A minimum of 20 students is required to run the class.

This year's Academy is scheduled from Friday, May 18 to Friday, June 1. Registration begins immediately and remains open until all seats are filled.

Students from other SAP University Alliances member universities are welcome to participate.
